Suggested article

Format: Head-to-head comparison page · **Length:** 1 200 – 1 800 words

Headline starting point: »Pferdegold vs Pavo: Vergleiche die Inhaltsstoffe von natürlichem Zusatzfutter für Freizeitpferde.«

Deterministic suggestion from silence type + Peec volume bucket. Starting point, not a lock-in.

Concrete moves

- **Head-to-head comparison page.** Build a landing page that positions Pferdegold directly against Pavo for this exact question. Match their spec fields, exceed them on one differentiator.

- **Retailer placement.** Inspect the Top-domain list above: where the winning engines retrieve product data (Amazon, Masterhorse, Kraemer, Pferdefutter.de), ensure Pferdegold's product assets – images, descriptions, reviews – are present and schema-tagged.
- **Schema.org/Product markup.** Add structured product data with competitor-equivalent spec fields so retrievers have the same signals to match against.
- **Editorial earned mentions.** Scan the Editorial rows in the source mix. These are news/blog domains that already cover the category – pitch a studied-backed angle to get cited there.
- **Re-measure in 14 days.** Drift Radar will pick up any visibility change on the next run. A rising visibility above 15 % within 2 weeks indicates the moves are landing.
