Suggested article

Format: Pillar / category-explainer guide · **Length:** 1 700 – 2 900 words

Headline starting point: »Welche Pellets sind gut für die Gelenke? – the Pferdegold guide«

Deterministic suggestion from silence type + Peec volume bucket. Starting point, not a lock-in.

Concrete moves

- **First-mover content page.** Category is answered generically – no brand is named. Publish a definitive answer page under pferdegold.de/welche-pellets-sind-gut-fr-die-gelenke that directly answers this question with structured, citeable content.
- **Data-backed claim.** If possible, publish a small study or aggregated data in the category – engines reward citable evidence. This lifts you above generic corporate content.
- **Editorial outreach.** The Editorial share in the source mix shows which news/blog domains engines trust for this topic area. Pitch a guest piece or interview there before a competitor does.
- **UGC presence.** If the UGC share is above 5 %, plant the brand into relevant Reddit / forum threads (disclosed) to seed retrieval signal.

- **Re-measure in 30 days.** Opportunity windows close fast in AI search – competitors will find the same silence. Track if own-visibility moves above 15 % within a month.
