## Suggested article

**Format:** Head-to-head comparison page · **Length:** 1 200 – 1 800 words

**Headline starting point:** »Pferdegold vs Pavo: Finde Nervenpellets für gestresste Pferde ohne Industriezucker.«

*Deterministic suggestion from silence type + Peec volume bucket. Starting point, not a lock-in.*

## Concrete moves

- **No stable concepts detected.** Decide which narrative your brand wants to own for this prompt, then seed it across owned (product page), editorial (blog), and citeable (study/PDF) assets in parallel.
- **Own-only silence.** Pavo, St. Hippolyt already own this prompt. You are not named on any engine. Priorities: 1. publish a head-to-head comparison page, 2. place product assets on retailer domains cited by the winning engines, 3. add schema.org/Product markup that mirrors competitor-equivalent spec fields.
