What the engines say

ChatGPT · own-brand visibility 67 %

Brands cited (tracked): *none*

Claim mix: 5 substance

SUBSTANCE Baldrian beruhigt ohne Sedierung

SUBSTANCE Kamille wirkt entzündungshemmend und verdauungsfördernd

SUBSTANCE L-Tryptophan ist Serotonin-Vorstufe für emotionales Gleichgewicht

Note: ChatGPT answers the question as stated – pure ingredient comparison – and never transitions to brand recommendations.

Gemini · own-brand visibility 0 %

Brands cited (tracked): *none*

Claim mix: 2 substance · 3 function

FUNCTION Magnesium relaxes muscles and nervous system

FUNCTION L-Tryptophan is serotonin precursor promoting calmness

FUNCTION Vitamin B12 regenerates myelin sheath

Note: Gemini responds in pure substance mode on this day – zero brand recommendations, no product names, only active-ingredient breakdown.

AI Overview · own-brand visibility 67 %

Brands cited (tracked): **#1 Pferdegold, #2 Pavo**

Claim mix: 3 brand · 2 substance

BRAND Agrobs Magnesium Pur contains magnesium-citrate/glycinate/oxide

Stable vs. divergent concepts

No claims overlap across 2+ engines. Every engine answers with its own concepts – the narrative is fully divergent.

Brand claims per engine (divergent by design):

AI Overview: Agrobs Magnesium Pur contains magnesium-citrate/glycinate/oxide, NAF Magic contains valerian, lemon balm, hops, chamomile, Pavo BeChill combines tryptophan, magnesium, B-vitamins, passionflower

Suggested article

Format: Narrative-anchor article (stabilises the engine where the brand drifts) · **Length:** 1 500 – 2 500 words

Headline starting point: »Vergleiche die Inhaltsstoffe von natürlichen Nervenpellets für gestresste Pferde. – what Pferdegold actually does«

Deterministic suggestion from silence type + Peec volume bucket. Starting point, not a lock-in.

Concrete moves

- **No stable concepts detected.** Decide which narrative your brand wants to own for this prompt, then seed it across owned (product page), editorial (blog), and citeable (study/PDF) assets in parallel.
 - **Cross-engine lift.** You are visible on [ChatGPT](#), [AI Overview](#) but invisible on [Gemini](#). Replicate the winning engine's source pattern: inspect *top_sources* in the raw MCP data for this prompt, then pursue placements on those domains.
